Ketintang 192, Surabaya, East Java, Indonesia

Motivated and detail-oriented engineering student with a strong foundation in analytical and problem-solving skills. Proficient in effective communication and teamwork, with a proven ability to contribute to organizational success. Actively engaged in multiple organizations and committees within the field, demonstrating leadership and collaborative experience. Committed to applying technical expertise to innovate and drive growth in professional settings.

Education Level

Universitas Airlangga - Surabaya, Indonesia Aug 2022 - Jun 2026 (Expected)
Undergraduate Electrical Engineering, 3.67/4.00

- Relevant Coursework : Analog Circuit Design, Digital Circuit Design, Intelligent Control, Control System, Electric Drive Control, Artificial Intelligence, System Automation.

Asia University Summer Short Program (Online) - Taichung, Taiwan Aug 2023
Undergraduate Artificial Intelligence, 84.00/100.00

- Developed a machine learning model for object identification from images using Python and the PyTorch framework.
- Created and deployed virtual computing environments using AWS Academy Learner Lab.
- Engineered a Passenger Hotspot Prediction system to forecast location and time-based passenger demand by analyzing historical data.
- Presented on the role of Artificial Intelligence in healthcare, highlighting its potential to enhance diagnostic accuracy, improve treatment effectiveness, and leverage predictive capabilities through vast dataset analysis.

Senior High School, SMAN 18 Surabaya - Surabaya, Indonesia Jul 2019 - May 2022
High School Diploma in Natural Sciences, 87.00/100.00

- Achieved a top 3 ranking in the school's academic standings.
- Competed in various competitions such as the National Science Olympiad (OSN) and essay writing contests.

Organisational Experience

Electrical Vehicle On Study (EV-OS) - Surabaya, Indonesia Feb 2024 - Dec 2024
Controller Engineer

- Designed a high-power motor controller for a 5 kW motor used in an electric go-kart, showcased in the prestigious PLN Innovation and Competition in Electricity (ICE) 2024.
- Developed an energy-efficient motor controller for a 1 kW motor, implemented in an electric prototype car for the Kompetisi Mobil Hemat Energi (KMHE) competition.
- Assembled and soldered printed circuit board (PCB) components with precision and diagnosed and resolved errors in motor controller systems.
- Programmed and implemented controller firmware using the Veeder Open Source Controller platform.
- Created and managed detailed Bills of Materials (BoMs) to support project logistics and cost optimization.
- Taught and mentored university students in designing motor controllers while fostering positive relationships and ensuring knowledge transfer.
- Participated actively in high-profile competitions, including PLN ICE 2024 and KMHE 2024

Electroscope - Surabaya, Indonesia Oct 2022 - Dec 2022
Secretary

- Handled correspondence and maintained effective communication between the Electroscope, Airnology, and key partner also processed over 10 sponsorship proposal documents.
- Orchestrated event schedules efficiently with an average meeting duration of less than 1 hour per session.
- Documented comprehensive agendas and meticulous meeting minutes

Skills, Achievements & Other Experience

- **Hard Skills:** Schematic Design, Printed Circuit Board Design, C, Python, Microsoft Office
- **Soft Skills:** Critical Thinking, Leadership, People Management, Team Work, Communication, Problem Solving, Adaptability, Flexibility
- **Language:** English (Professional Working Proficiency), Indonesia (Native)
- **Interest:** Power Electronics, Control Systems, Artificial Intelligence
- **Achievement:** 2nd Place in Electric Go-Kart Design Competition ICE 2024, 3rd Place in Electric Go-Kart Racing Class A, Special Award for "Most Aesthetic Design" for Oscar Car at KMHE 2024, Finalist of Pemilihan Mahasiswa Berprestasi (PILMAPRES) 2023 &

2024, 100 Quarter Final Participant of National Olympiad of Chemical Engineering (NOPEC)

- **Certificates:** English Language Proficiency Test (ELPT) - Score 523
