

Ellen Diva Ibanez

Surabaya, Indonesia | ellendivaibanez505@gmail.com | +6282245726727 | bit.ly/portofolio_ellendivaibanez

As a Data Science student at Universitas Airlangga (UNAIR), I am passionate about leveraging my technical knowledge in machine learning, Python, R, and SQL to drive meaningful insights. My focus is on applying data analysis techniques to real-world problems and crafting impactful solutions. With a strong foundation in programming, data manipulation, and statistical analysis, I aim to contribute to organizations through data-driven decision-making. My ability to communicate effectively, think critically, and generate creative solutions has allowed me to participate in various organizations and competitions, enhancing my teamwork and problem-solving capabilities.

EDUCATION

Airlangga University – Bachelor of Data Science and Technology

Surabaya, Indonesia | Aug 2023 – Present

GPA: 3.68 / 4.00

- Currently pursuing a Bachelor's degree focused on data analysis, statistics, and computing
- Relevant Courses: Introduction to Programming, Programming Algorithms I & II, Spatial Data Analysis, Introduction to Statistics, Introduction to Databases

SMAN 5 Madiun (Public Senior High School 5 Madiun)

Madiun, Indonesia | 2021 – 2023

Accelerated Program (SKS) – Completed in 2 years

- Selected as Student Ambassador of SMAN 5 Madiun
- Graduated as the number 1 student in the Science (IPA) program

EXPERIENCE

IRIS (Data Science and AI Community) | 2023-2024

Staff of Public Relations

- *Project Coordination and Documentation*
Collected and organized members' creative and research projects for publication and promotion across IRIS platforms.
- *External Representation and Networking*
Represented IRIS at external events such as the FTMM School of Journalism, establishing connections and maintaining communication with institutional partners.

Airlangga Bridge Club | 2024

Staff of Training and Achievement Division

- **Structured Training for New Members and Athletes**
Facilitated regular practice sessions to develop basic skills for newcomers and enhance competitive readiness among active athletes.
- **Competition Preparation and Strategy Development**
Led intensive training programs focused on tournament preparation, including gameplay analysis and advanced tactical drills.

- **Athlete Data and Competition Management**

Maintained an up-to-date athlete database and coordinated administrative tasks such as competition registration and schedule dissemination.

PROJECTS

This portfolio showcases a collection of projects I have worked on: bit.ly/portofolio_ellendivaibanez.

ACHIEVEMENTS AND CERTIFICATIONS

Generative AI Workshop – Google Developer Group (GDG) Cloud | 2025

Participated in an in-depth workshop on generative AI, exploring models such as GANs and Transformers, and understanding their real-world applications.

2nd Place National Infographic Competition (Psy-Accretion 2.0) - Universitas Sumatera Utara | 2024

Title: *"RELIFE: Smart Strategy to Build Mental Toughness in the Era of Technological and Social Media Development"*

The infographic highlights the effects of dopamine addiction caused by short videos, and proposes a behavioral model (RELIFE: Reduce – Engage – Live – Improve – Form – Exercise) to strengthen resilience and digital well-being.

Digital Data and AI Workshop – Ruang Data Indonesia | 2024

Learned fundamental data science workflows including linear regression modeling using SPSS, along with an introduction to machine learning concepts.

Student Leadership and Management Training (LKMM) - Faculty of Advanced Technology and Multidisciplinary Studies | 2023

Completed a training program focused on leadership, teamwork, and student organization management.

SKILLS

Soft Skills: Leadership, Team Collaboration, Integrity, Time Management, Project Management, Analytical Thinking, Critical Thinking

Hard Skills: Flask, Python, SQL, R, HTML, CSS, JavaScript, Excel, PowerPoint, Word, Power BI
