

# Aqila Malfa Zahira

## Data Science Technology Student

Surabaya, Indonesia | (+62)881026722488 | [aqila.malfa.zahira-2023@ftmm.unair.ac.id](mailto:aqila.malfa.zahira-2023@ftmm.unair.ac.id) | [www.linkedin.com/in/aqilamalfa](https://www.linkedin.com/in/aqilamalfa) | [bit.ly/portoaqilamalfa](https://bit.ly/portoaqilamalfa)

I am a Data Science student at Universitas Airlangga (UNAIR) with a good passion for scientific writing, particularly in the field of data science. Proficient in Python, R, and machine learning, I focus on exploring innovative projects and crafting impactful scientific papers that bridge technical insights with meaningful applications. My strengths in communication, critical thinking, and creative ideation have driven my active participation in organizations and competitions, further enhancing my ability to collaborate and innovate.

As a recipient of the Most Outstanding Student FTMM UNAIR, I have demonstrated academic excellence and leadership. With a commitment to advancing data science through research and ideation, I aim to contribute to impactful developments and share knowledge through scientific writing.

## Education

**MAN 2 Kota Malang - Malang, Indonesia** Aug 2020 – July 2023

*Bachelor degree in Data Science Technology*

- Graduated with an average score of 92.3 and succeeded in becoming an eligible student
- Became an active member of the MAN 2 Malang City research team, contributing to the development of scientific papers and achieving top placements in several national scientific paper competitions.

**Universitas Airlangga - Surabaya, Indonesia** Aug 2023 – Present

*Bachelor degree in Data Science Technology*

- CGPA: 3.8/4.00 (Current)
- Relevant Coursework: Introduction to Programming, Programming Algorithm I, Programming Algorithm II, Introduction to Database.
- 1<sup>st</sup> Most Outstanding Student FTMM UNAIR 2025

## Experience

**IRIS (Data Science and AI Community) - Surabaya, Indonesia** Jan 2025 – Present

*Project Manager*

- Serve as the Point of Contact (PIC) for short-term projects at IRIS, with ongoing leadership in sentiment analysis initiatives.
- Lead and oversee various projects within IRIS, ensuring smooth execution and progress, including the ongoing development of the IRIS website and other data science-related projects.
- Provide training and mentorship to researchers at IRIS, conducting sessions to deepen their understanding of Data Science and AI, and fostering skill development in these domains to enhance overall project outcomes.

**Himpunan Mahasiswa Teknologi Sains Data - Surabaya, Indonesia** Jan 2025 – Present

*Head of Research and Knowledge Department*

- Led the Research and Knowledge Department (Riskel), focusing on enhancing the academic performance and research capabilities of students in the field of Data Science.
- Managed and oversaw 7 major programs, including:
  - DS Update: Developed and managed content on Data Science topics to keep students informed about the latest trends and research.
  - DataQuest: Organized and led a national-level Data Science competition
  - DSTC (Data Science and Technology Conference): Coordinated a national seminar to bring together experts and students to share knowledge and innovations in Data Science.
  - Peer Tutors: Supervised a peer tutoring program to provide academic support to fellow students
- Fostered collaboration among students and externals to drive academic excellence and innovation within the department.

## Teaching Assistant – Statistics Methods Practical - Surabaya, Indonesia

April 2025 – Present

- Assisted over 60 students in practical sessions, providing guidance and support in using statistical tools such as R, Minitab, and SPSS.
- Facilitated understanding and application of key statistical concepts, including inferential statistics, regression analysis, ANOVA, and more, through hands-on practice.
- Provided one-on-one assistance during lab sessions, helping students troubleshoot issues and apply theoretical knowledge

## Projects

## Achievements

---

- **1<sup>st</sup> Most Outstanding Student** – Held by FTMM Universitas Airlangga | 2025
- **Best Paper SATRIA DATA Statistics Essay Competition** – Held by PUSPRESNAS Kemendikbud | 2024
- **1st Place Academic Competition of Data Mining (ACTION)** – Held by Universitas Negeri Surabaya | 2024
- **Selected Team Data Science Academy COMPFEST 16** – Held by Faculty of Computer Science Universitas Indonesia | 2024
- **Top 5 Fortex Data Science Competition** – Held by Universitas Al-Azhar Indonesia | 2024
- **Top 4 and Best Presentation Penalaran Berkarya** – Held by UKM Penalaran Universitas Airlangga | 2023
- **Semifinalist MARS #11 Southeast Asia Paper Competition** – Held by FMIPA Universitas Yogyakarta | 2023

## Language Proficiency and Skills

---

**Hard Skills:** Backend Development (Flask), Programming Language (Python, SQL, R, HTML, CSS and JS (Basic)), Microsoft Office (Excel, PowerPoint, dan Word), tools (Google Colaboratory, Jupyter Notebook, R Studio, and Power BI) and Platforms (GitHub).

**Soft Skills:** Project Management, Leadership, Problem-Solving, Analytical Thinking, Team Work.

**Language Skills:** Indonesia (Native), English (TOEFL : 530)
