I am a 6th-semester electrical engineering student at Universitas Airlangga, passionate about control systems, I am dedicated to IoT, power electronics and developing applications that enhance efficiency across various sectors.

Education

Electrical Engineering | Universitas Airlangga – Surabaya

2022 – Present

Current GPA: 3.55/4.00

- 3rd Place in Business Model Canvas (BMC) BSO Innovation Competition FTMM 2024 for Renewable Energy innovation

Experiences

Intern | PT. PLN (Persero) Gas Insulated Switchgear 150kV Krembangan

January – February 2025

- Conducted a Level 1 inspection of a 150kV GIS, including observation, SF6 gas pressure measurement, and leakage detection in the GIS system components such as cables, transformers, circuit breakers, and cubicle panels.
- Conducted annual GIS maintenance in a shutdown condition until it can be operated normally.

Foundation Program Student | Apple Developer Academy @UC

June - July 2022

- Created a wireframe concept for a mobile application using Sketch software
- Collaborated with a team to develop a prototype application for mental health consultation
- Developed ideas into challenges for further development, management, opportunity analysis, and application development in addressing subsequent issues.

Other Experiences

Volunteer | Desa Binaan FTMM 1.0

August – October 2024

- Performed repairs on hydroponic installations and assembled water condition monitoring sensors using ESP32, which could be monitored via an app powered by solar panel (PV).
- Taught electrical circuits and electromagnetism to elementary school students.

Public Relations Staff | ELECTROSCOPE 3.0

July - September 2024

- Contact schools and promote the competition offline in 11 high schools in Surabaya and online for 127 high schools outside of Java.

Health Coordinator | Grahita Sebrani Widyatmaka GRANAT 2023

September 2023

- Coordinated the health division and facilitated the care of new students experiencing illness to ensure the seamless execution of the event.

Skills

Hard Skills: Figma, Qt, Eagle, Blender 3D, Android Studio, MATLAB, Microsoft Office

Soft Skills: High Learning Enthusiasm, Environmental Concern, Time Management
